

AeroDrive. Effective. Precise. For lasting results.

Experience that 'first-hand' scent... again

Even the cleanest car, boat or caravan can carry invisible traces: persistent odours trapped in upholstery, carpets or ventilation systems. The AeroDrive tackles what other methods cannot reach, delivering deep odour removal using ionisation and ozone technology.

Odour removal at the source

The AeroDrive is a professional odour elimination unit that does not mask smells but breaks them down at a molecular level. With a combination of active ions and ozone, the unit neutralises all types of odours, including smoke, moisture and pet odours, even when they have been embedded in fabrics or foam for years.

Key advantages

- ✓ Long-lasting effectiveness
- ✓ Truly odour-free result
- ✓ No side effects
- ✓ Unique bi-polar technology
- ✓ Very low energy consumption
- ✓ High-quality components
- ✓ Manufactured in the Netherlands

Applicable across multiple sectors

The AeroDrive is compact, low-maintenance and engineered for intensive professional use, including:

- **Automotive companies and detailers** – Remove even the most stubborn odours and restore a neutral, odour-free interior within a few days, making vehicles feel like new again.
- **Hotels and holiday parks** – Create rooms that are genuinely odour-free. Fresh, neutral air increases guest comfort and overall satisfaction.
- **Camper and boat rental companies** – Offer every renter a fresh start, free from moisture or usage odours. A clean indoor climate makes any trip more pleasant, whether on the road or at sea.

In all these situations, it comes down to one promise: an interior that becomes truly odour-free.

Specifications

Dimensions

L 620 mm W 240 mm H 150 mm

Weight

10.3 kg

Power Consumption

25 watt

Control

Setting switch: high/low/off

Optionally available with more powerful ionization tubes for higher ozone output. Recommended for larger spaces such as large motorhomes, hotel rooms, and holiday homes.

Quality that stands out

With decades of expertise in odour removal and disinfection technologies, Bioclimatic has developed the AeroDrive into a top-performing professional odour elimination system. While many devices only work on the surface, the AeroDrive combines deep performance with ease of use.

The AeroDrive is fully manufactured in the Netherlands, offering proven quality and direct support whenever needed.

Effective. Precise. For lasting results.
